

## **NGOC Chairman's Challenge 15-September 2007**

Well, first of all, apologies to everyone about the wrong control numbers being printed on the map. As a grade 2 controller, I should have known better and checked the map before - a mistake I won't make again.

Of course, once you've realised the planner's error, the best plan of action would be to totally ignore the control descriptions. Whilst this makes route choice a complete lottery because the points values are wrong, do what Chris did, try and get the lot.

A further difficulty arose for one unnamed competitor (name not in the results, so you might be able to work it out) who said that it was impossible to relocate at a control site because he didn't know which control it was.

Despite the confusion, most people seemed to enjoy their run in the sunlit forest.

Special thanks to Carol and Janet for the barbecue, Alan at registration and to Rosemary for helping bring in some controls.
