

NGOC New Year's Day Score

Thank you everyone for coming today and I hope this gave you all a good start to your 2012 orienteering.

Following a review of the results, and Clive Hallet's admission that he punched one control twice, by good fortune, although prizewinners changed slightly, the same people in the end got the prizes!

First male on handicap: Mark Saunders(BOK)

First female on handicap: Jo Foster(BOK)

Male with most points collected: Clive Hallet(BOK)

Female with most points collected(after time penalties): Alice Bedwell(BOK)

First Boy: Michael Hallet(BOK)

First Girl: Ali Wilkinson(HOC)

Apologies if anyone was badly affected by the vandals who moved control 35 and thanks to Ifor Powell who I believe found it and put it back during the event.

Special thanks to Pat Macleod, NGOC Chairman, who brought and took away all the equipment, put out controls with me yesterday, put out roadsigns and erected tents and start/finish today, did the download and computing, and helped collect the controls.

Thanks also to Carol Stewart who masterminded and then handled the registration in her usual efficient way. And to my wife Pat for helping on planning visits, and today with as many odd jobs as her broken wrist would permit.

Finally, to Shirley and Steve Robinson who each collected some controls, many from the furthest parts of the area.

Neil Cameron
