

## **Organiser's Comments**

Thank you all for coming to Sheepscombe yesterday. We had a good turnout to start off this year's Mini League. This being the first League event I'd planned, I particularly appreciated the positive comments about the courses – a great relief!

Apologies to those of you who ended up parking in less than ideal positions, or got caught up in a queue of people trying to turn round. I was conscious that the opportunities for parking on the track before registration were rather limited so tried to fill all the space beyond registration first. It turned out that I could have squashed fewer cars in down there, as there were some nice spaces left unfilled at the end, not too long a walk from registration.

Thanks to: Roger Coe, for checking my courses and giving useful advice; Pat McLeod, for helping to set up, doing the computing and generally being very knowledgeable; Andy Craig and Tom Birthwright for helping to set up and man the start and registration; Tom, Andy and Ben Moorhouse for collecting controls; and those who arrived very early and helped with the tent.

Caroline
